SUMMARY

Mobile App Developer with around 4 years of experience building cross-platform applications for Android and iOS using React Native, Flutter, and Expo. Specialized in developing scalable, high-performance mobile applications with clean architecture, reusable components, and maintainable code.

Experienced in RESTful API integration, third-party SDKs, payment gateway integration (Stripe, Razorpay, PayPal), and Firebase (Authentication, Firestore, FCM). Strong focus on performance optimization, code quality, and delivering seamless user experiences.

WORK EXPERIENCE

Singsys Software Services Pvt Ltd., Software Engineer

Apr 2024 – Present

Lucknow, Uttar Pradesh,
India

- Led development and maintenance of multiple production-grade cross-platform mobile applications using React Native and Flutter
- Designed and implemented scalable architecture, improving code reusability and maintainability across projects• Integrated RESTful APIs and third-party services to enable real-time data flow and business-critical features
- Implemented secure payment gateway integrations (Stripe, Razorpay, PayPal) with optimized transaction handling
- Built and managed push notification systems using Firebase Cloud Messaging (FCM)
- Optimized app performance by reducing load time, minimizing crashes, and improving responsiveness across Android & iOS
- Collaborated with product managers, designers, and backend teams to deliver high-quality features within deadlines• Ensured code quality through best practices, debugging, and performance tuning

Vibrant IT Solutions Pvt. Ltd., React Native Developer

Aug 2023 – Apr 2024

Lucknow, Uttar Pradesh,
India

- Developed and optimized cross-platform mobile applications using React Native
- Built responsive and user-friendly UI components aligned with modern UI/UX standards
- Integrated REST APIs and handled complex application flows and state management
- Identified and resolved performance bottlenecks, improving app stability and user experience• Collaborated with team members using Git for version control and efficient workflows

Softpro India Computer Technologies (P) Ltd., Jr. Web Developer

Jul 2022 – Aug 2023

Lucknow, Uttar Pradesh,
India

- Developed responsive web interfaces using HTML, CSS, JavaScript, and React.js
- Built reusable UI components and improved frontend performance
- Worked in a collaborative environment using Git for version control

SKILL

- **Languages:** JavaScript, Dart
- **Frameworks:** React Native, Flutter, Expo
- **Backend & APIs:** REST APIs, Firebase (Authentication, Firestore, FCM)
- **Payments:** Stripe, Razorpay, PayPal
- **Tools:** Git, GitHub, Android Studio, Xcode

AWARDS

- Awarded **Best Developer of the Year** for outstanding performance, code quality, and contribution to multiple mobile app projects
- Recognized as **Employee of the Month** multiple times for consistently delivering high-quality work within deadlines

EDUCATION

Bachelor of Technology | B.Tech, Prayag Institute of Technology & Management, Prayagraj

Aug 2023 – Present

Prayagraj, Uttar Pradesh,
India

Computer science and engineering | Diploma, Govt. Polytechnic Rajgarh, Mirzapur

Sep 2020 – Oct 2022

Mirzapur, Uttar Pradesh,
India
