 Okhla, Jamia Nagar, New Delhi

ABOUT ME

I am a UI/UX designer who focuses on creating simple, useful, and enjoyable digital experiences. I listen to users, understand problems, and design clear solutions that work well in real life. I enjoy turning ideas into clean interfaces, improving usability, and helping products feel natural, accessible, and easy for everyone to understand. I believe good design solves problems with clarity.

EDUCATION

Bachelor of Business Administration (In Progress) –
Jamia Millia Islamia University, New Delhi

Projects

SetWall – Smart Wallpaper App

Designed and developed a personalized wallpaper application with category based dynamic browsing. Delivered a clean and interactive interface, enhancing user engagement. Tools: Figma, Flutter | Role: UI Designer & Developer

Mealy Ai - An cooking assistant

Mealy AI makes healthy eating simple. From custom meal plans to nutrition-aware recipes and shopping lists, Mealy helps you stay on track without the hassle. Smart, flexible, and designed to fit real life. Tools: Figma, Flutter | Role: UI Designer & Developer

Certification

Google UX Design Certificate (Coursera, 2025)
