

# LEKH RAJ

Senior Angular Developer | Frontend Engineer

lekhrajthakur3288@gmail.com • +91-7876528826 • [linkedin.com/in/lekh-raj-688a788b](https://www.linkedin.com/in/lekh-raj-688a788b)

---

## PROFESSIONAL SUMMARY

Angular Developer with 4+ years of experience building and scaling production-grade web applications for 10,000–15,000 active users. Specialist in Angular (v6–v20), TypeScript, RxJS, NgRx, and microfrontend architecture using Nx Monorepo + Native Federation. Proven track record of cutting bundle size by 42% and reducing load time from 10s to 3s. Experienced in full feature ownership — from architecture planning with CTOs to production releases in agile teams of 6.

---

## TECHNICAL SKILLS

**Frontend:** Angular (v6–v20), TypeScript, JavaScript (ES6+), RxJS, HTML5, CSS3, SASS

**Frameworks & UI:** Electron JS, Ionic, Angular Material, PrimeNG, Bootstrap

**State Management:** NgRx, Angular Signals

**Architecture:** Microfrontend (Nx Monorepo, Native Federation), Clean Architecture, Scalable System Design

**Backend / APIs:** Node.js, REST API integration, MEAN Stack

**Testing:** Jasmine, Karma (Unit & Integration Testing)

**DevOps & Tools:** Git (GitHub / GitLab), CI/CD pipelines, Agile / Scrum

**Performance:** Bundle optimization, Web Vitals, Lazy loading, Tree shaking, Angular Ivy

---

## PROFESSIONAL EXPERIENCE

**Software Developer** | Clavis Technologies Pvt. Ltd. | Noida, India *Apr 2023 – Present*

- Core product engineer for QuickReviewer — an AI-powered proofing & collaboration platform serving 10,000–15,000 active users; worked directly with the CTO on architecture decisions and release planning.
- Slashed bundle size by 42% (6MB → 3.5MB) and reduced page load time by 70% (10s → 3s) by leading the Angular v15 → v19 migration with Ivy compiler optimizations, lazy loading, and tree shaking.
- Architected and delivered microfrontend migration using Nx Monorepo + Native Federation, enabling independent deployments across modules and improving team velocity in a 6-person engineering team.
- Engineered AXIA — a dynamic form builder enabling agents to create configurable verification forms with custom validation rules, secure data submission, and end-to-end audit trails.
- Established performance budgets and Angular best practices adopted across the entire frontend codebase.

**Sr. Angular Developer** | Bepoj Technologies Pvt. Ltd. | Mohali, India *Jan 2021 – Mar 2023*

- Owned end-to-end development of scalable web applications using Angular 14+, TypeScript, RxJS, and Bootstrap within a Scrum team.
- Led migration of legacy AngularJS (v1.x) applications to Angular 15, eliminating technical debt and improving maintainability and rendering performance.
- Built reusable component libraries (forms, pipes, directives, services) used across 3+ products, reducing duplicate code by an estimated 30%.
- Maintained CI/CD pipelines via GitLab and enforced TypeScript strict mode across projects, reducing production defect rate.

**Frontend Engineer** | CrownStack Technologies Pvt. Ltd. | Gurgaon, India *Aug 2018 – Dec 2020*

- Developed a full-scale eCommerce web application in Angular with a separate Admin Panel for product, order, user, and inventory management.
- Integrated REST APIs for dynamic data handling including real-time product listings, search & filtering, and order management workflows.
- Ensured cross-browser compatibility and mobile responsiveness across all delivered features.

- Collaborated with backend teams to optimize API payloads, improving data load performance on key user journeys.

---

## KEY PROJECTS

**QuickReviewer** — AI-powered online proofing & collaboration platform

- MEAN Stack SaaS product for reviewing videos, images, PDFs, and audio; serving 10K–15K active users.
- Reduced load time from 10s → 3s and bundle from 6MB → 3.5MB through Angular v19 migration and build optimization.

**AXIA** — Third-party verification & dynamic form platform

- Designed a configurable form builder with secure data handling, custom validation, and agent/customer workflow automation.

**Digital Whiteboard** — Real-time collaborative learning tool

- Built real-time drawing application with LaTeX math equation support, integrated web & YouTube search for enriched learning sessions.

---

## EDUCATION

**Bachelor of Computer Applications (BCA)** — Sikkim Manipal University, New Delhi 2015 – 2018

**Diploma in Web Designing** — IGCSM, New Delhi 2013 – 2014
