PROJECTS

To-Do List App 🗄 | Technology -HTML, CSS, JavaScript

2022

- Developed a simple and interactive To-Do List web application using HTML, CSS, and JavaScript that allows users to efficiently manage daily tasks. The app enables users to add, edit, mark as complete, and delete tasks dynamically without reloading the page. It uses local Storage to save data, ensuring that tasks remain even after refreshing or closing the browser..

Weather Forecast 🗄 | Technology HTML, CSS, JS and OpenWeatherMap API

2023

- Developed a Weather Forecast Web App using HTML, CSS, and JavaScript that displays real-time weather information for any city entered by the user. The application fetches live data from the OpenWeatherMap API and shows details like temperature, humidity, wind speed, and weather conditions. It provides instant feedback for invalid city names and features a clean, responsive user interface.

Tic Tac Toe 🗄 | Technology - React

2024

- Developed an interactive Tic Tac Toe Game using React.js that allows two players to play on a 3×3 grid. The app tracks player turns, checks for a winner or draw, and lets users reset the game easily. It demonstrates the use of React components, state management (**useState hook**), and conditional rendering to handle user interactions dynamically.
