SUMMARY

Results-driven **MERN Stack Developer (4+ years)** specializing in scalable web and mobile application development. Skilled in **React.js, Node.js, and React Native**, with a strong focus on performance optimization, API integration, and modular architecture. Proven track record of improving application efficiency, automation, and deployment reliability across diverse business domains.

WORK EXPERIENCE

Software Engineer — Pie Infosystems

Nov 2021 – Present — Delhi, India

- Delivered high-performance full-stack applications across MERN and .NET ecosystems, improving product stability and delivery speed.
- Optimized API integrations and caching strategies, reducing load times by 30% and enhancing UX for 5K+ active users.
- Automated workflows via SendGrid, Twilio, and Razorpay, reducing manual intervention by 40%
- Spearheaded code review processes that lowered post-release defects by 25% and ensured 100% timely deployments.
- Collaborated with cross-functional teams to enhance delivery pipelines and enforce best development practices.

PROJECTS AND ACHIEVEMENTS

Microsite (Survey-Based Platform) | *MERN Stack, Twilio, SendGrid*

- Automated survey-driven lead management system; enabled dynamic admin control and lead routing, boosting conversion by 35%.

Daily (E-Commerce Platform) | *React.js, Redux, Node.js, PostgreSQL, RTK Query*

- Enhanced user/admin modules and optimized search queries to improve product discovery speed by 40%.

Vosita (Telemedicine App) | *React Native, REST APIs*

- Launched cross-platform app for real-time consultations; reduced API latency by 20% improving patient engagement.

EmailX & SMSX (Automated Email and SMS Dispatch System) | *MERN, SendGrid, Twilio, PostgreSQL*

- Engineered email analytics engine with IP rotation and A/B testing, increasing delivery success rate by 35%.
- Created high-volume messaging system with regulatory logging and daily reporting; processed 100K+ SMS/month.

File Storage & Sharing Service | *Node.js, MongoDB, AWS S3, JWT*

- Engineered a secure cloud-based file management system with password-protected access links.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks: React.js, Next.js, Node.js, Express.js, React Native

Libraries: Redux Toolkit, Redux-Saga, RTK Query, Material UI, Tailwind CSS, Bootstrap

Databases: MongoDB, PostgreSQL, MySQL, Sequelize, Mongoose, Redis

Tools & Cloud: Git, Bitbucket, Jira, VSCode, Lambda

Soft Skills: Leadership, Collaboration, Communication, Problem Solving

EDUCATION

Amity Online

Master of Computer Applications (MCA)

Aug. 2021 – May 2023

Guru Gobind Singh Indraprastha University, India

Bachelor of Computer Applications (BCA)

Aug. 2018 – Jun. 2021
