## Objective

Results-driven **Business Analyst** with experience in requirement analysis, process improvement, and stakeholder coordination. Skilled in translating business needs into actionable solutions, improving operational efficiency, and supporting data-driven decision making. Seeking to contribute analytical expertise and business insights to drive organizational growth.

## Experience

### Meon Technologies | April 2024 – Present

#### Key Result Areas (KRA)

- Gather and analyze business requirements from stakeholders and convert them into clear functional specifications.
- Improve operational efficiency by identifying process gaps and recommending optimized workflows.
- Coordinate with development, QA, and operations teams to ensure successful project implementation.
- Monitor project deliverables, timelines, and performance metrics to ensure business objectives are met.
- Support management with data insights, reports, and dashboards for strategic decisions.

#### Standard Operating Procedures (SOP)

- Conduct requirement gathering sessions with internal teams and clients.
- Prepare BRD (Business Requirement Document) and FRD (Functional Requirement Document).
- Document business workflows and process diagrams.
- Perform UAT (User Acceptance Testing) and coordinate with QA teams.
- Conduct post-implementation reviews and suggest process improvements.

#### Statement of Work (SOW)

- Define project scope, objectives, deliverables, and timelines.
- Identify stakeholder responsibilities and resource requirements.
- Track project milestones and ensure alignment with business goals.
- Manage requirement changes and document revisions.
- Ensure successful delivery of solutions as per client expectations.

#### Key Achievements

- Resolved client queries efficiently, maintaining strong client satisfaction levels.
- Implemented SMART requirement strategies improving requirement clarity and delivery timelines.
- Conducted post-implementation analysis to identify improvement opportunities.
- Prioritized high-impact requirements to increase project efficiency.
