PROFESSIONAL SUMMARY

Frontend Developer with 6 months of hands-on experience in building responsive and user-friendly web applications using React.js, JavaScript (ES6+), HTML, and CSS. Skilled in developing reusable components, integrating REST APIs, and translating Figma designs into clean UI. Experienced in MERN stack development with hands-on project deployment. Passionate about writing maintainable code and improving UI/UX performance in agile environments.

EDUCATION

Jodhpur Institute of Engineering & Technology, Jodhpur
Bachelor of Technology in Computer Science (AI & ML)

CGPA: 8.02/10
Sep 2022 – Mar 2026

EXPERIENCE

Regex Software Services Pvt. Ltd.

Jaipur, India

Frontend / React Developer

Mar 2025 – Aug 2025

- Built reusable React components, reducing development time by 25%. Expanded user-facing features using **React.js** for platforms serving **3,000+ users**. Boosted performance and reduced load time by 30%.
- Streamlined state management using Redux, improving data consistency. Translated Figma designs into responsive UI, increasing engagement by 20%. Collaborated in agile teams to deliver features on time.

PROJECTS

Full-Stack eCommerce Application

MERN Stack

- Engineered a full-stack eCommerce platform with React, Node.js, and MongoDB. Managed global state using Redux for cart and authentication workflows. Implemented JWT authentication and protected routes.
- Reduced load time by 35% using optimization techniques. Enabled seamless user experience with dynamic product filtering and cart updates. Optimized frontend performance, decreasing load time by **35%** using efficient API handling and lazy loading.

Admin Dashboard

React

- Delivered a responsive admin dashboard in **React.js**, enabling **40%** better data insights. Integrated REST APIs to display real-time analytics, reducing manual reporting effort by **30%**.
- Optimized component rendering, reducing page load time by **35%**. Refactored reusable components, reducing code redundancy by **20%**.

Court Booking App

React, MongoDB

- Developed a real-time sports court booking platform using **React.js**, improving booking efficiency by **35%**.
- Implemented dynamic slot selection system, reducing user booking time by **30%**. Designed mobile-first responsive UI, increasing user engagement by **40%**.
- Integrated REST APIs for availability and booking management, improving data accuracy by **25%**.
- Optimized state management and UI updates, reducing interaction delays by **20%**. Enhanced user experience with smooth navigation and instant feedback, boosting retention by **15%**.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend Frameworks: React.js, Angular 14

State Management: Redux, Context API

UI & Styling: Bootstrap, Material UI, Responsive Design, Flexbox, CSS Grid

APIs & Auth: REST APIs, Fetch API, JWT Authentication

Build Tools: Webpack, NPM

Version Control: Git, GitHub

Tools: VS Code, Postman

Deployment: Netlify, Vercel

ADDITIONAL HIGHLIGHTS

- Strong problem-solving skills and attention to UI/UX details.
- Experience working in fast-paced agile development environments.
- Focused on developing scalable and high-quality React applications with clean architecture.
