PROFESSIONAL SUMMARY

MERN Stack Developer — Immediate Joiner — Open to Work

Full-stack developer with hands-on experience building scalable web applications including an AI-powered task management system with authentication, analytics, and automation features. Skilled in React.js, Node.js, Express.js, and MongoDB with strong expertise in REST APIs, JWT authentication, and performance optimization. Proven ability to develop production-ready applications and deliver real-world solutions.

EDUCATION

Parul University, Vadodara 2022 – 2026
B.Tech in Computer Science Engineering

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+)
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, MySQL
Concepts: OOPS, Data Structures & Algorithms
Tools: Git, GitHub, Postman, VS Code, Vercel
Additional: JWT Authentication, API Integration, Deployment

PROJECTS

AI-Powered Task Management System (Flagship Project) Live — GitHub
React.js, Node.js, MongoDB

- Developed a full-stack task management system with AI-based smart task prioritization and automation.
- Implemented secure JWT authentication and role-based access control.
- Built analytics dashboard to track productivity, task completion, and performance insights.
- Designed and optimized REST APIs for real-time task operations and scalability.
- Improved user productivity by automating task prioritization workflows.

Employee Leave Management System Live — GitHub
React.js, TypeScript, Node.js

- Built a role-based leave approval system reducing manual tracking effort by 60%.
- Developed secure authentication and multi-level approval workflows.
- Improved operational efficiency through automation of leave processes.

Student ERP Management System Live — GitHub
React.js, REST APIs

- Developed ERP system for managing student data, records, and workflows.

- Designed responsive UI improving usability and user engagement.
- Integrated REST APIs for efficient data handling and system performance.

EXPERIENCE

Excelsior Technologies

Feb 2026 – Present

MERN Stack Developer Intern

- Developed and deployed full-stack MERN applications with scalable REST APIs.
- Built backend services and integrated frontend systems for real-time performance.
- Improved code efficiency and reusability using modular architecture.
- Collaborated using Git for version control and deployment workflows.

Warals Technology Pvt. Ltd.

Dec 2025 – Jan 2026

React JS Intern

- Developed reusable React components improving development speed.
- Enhanced UI responsiveness and optimized state management.

Sparks to Ideas

May 2025 – June 2025

Web Designer Intern

- Built responsive web interfaces using HTML, CSS, and JavaScript.
- Improved UI consistency and cross-browser compatibility.

CERTIFICATIONS

- JavaScript Certification STP Computer Education
- Power BI Certification Data Visualization & Dashboards
- SAP Emerging Technologies Code Unnati Program

HACKATHONS & ACHIEVEMENTS

- Navonmesh 2.0 Hackathon Top 30 Teams
- August Code Hackathon Top 15 Teams
- PU Code Hackathon 2.0 Participant
