OBJECTIVE

Aspiring **Salesforce Developer** with hands-on experience in **Apex**, **Lightning Web Components (LWC)**, and declarative automation tools. Skilled in writing bulkified Apex code, respecting **Governor Limits**, and building scalable CRM solutions. Also proficient in **Full Stack Web Development (MERN)**. Seeking a role to contribute to enterprise **Salesforce Platform** implementations and grow as a certified SFDC professional.

EDUCATION

- **B.Tech in Computer Science Engineering** 2022-2026
Jaipur Engineering College and Research Centre, Jaipur **CGPA: 8.86**
- **Senior Secondary Education** 2022
Tilak Public School, Jaipur **89.8%**
- **Secondary Education** 2020
Tilak Public School, Jaipur **85.4%**

SKILLS & TOOLS

Languages: C, C++, JavaScript, Apex
Frontend: HTML, CSS, React.js, VF page, LWC
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, MySQL, SOQL
Tools: Git, GitHub, Docker, Render, Salesforce Admin
Soft Skills: Team Work, Active Listener, Problem Solver

INTERNSHIP

- Salesforce Intern | CLOUD MENTOR** Oct 2025 - Present
- Developed **Apex triggers, classes, and Lightning components (LWC/Aura)** to automate business processes.
 - Implemented **validation rules, workflows, and flows** to enforce data integrity and streamline operations.
 - Worked on SOQL queries, batch jobs, and trigger handler frameworks with recursion control.
- Full stack Intern | Ceeras Pvt.Ltd** Feb 2025-March 2025
- Developed and maintained web applications using **MERN stack**, with clean UI.
 - Collaborated with the team on scalable solutions, gaining hands-on exposure to real-world IT service workflows
- Full Stack Web Development | Upflairs Pvt. Ltd.** June 2024
- Built RESTful APIs using Express.js and integrated MongoDB for backend storage.
 - Built modular React.js components and followed standard workflows for state management, and deployment.

PROJECTS

- Wanderlust | Personal Project | Live Demo** Aug 2024 – Sep 2024
- Developed a full-stack Airbnb-style platform using **EJS, Express.js**, and **MongoDB** for hotel listings and reviews.
 - Implemented secure user authentication, image upload via **Multer + Cloudinary**, and **ownership-based deletion**.
 - Enabled full **CRUD** operations for listings and reviews with session-based access control.
 - Deployed on **Render** with environment-based configurations for production security.
- Nyayantra – Constitution Awareness Platform | SIH 2024 Hackathon Project | GitHub** Nov 2024 – Dec 2024
- Built an **EJS-Express-MongoDB** based educational platform for Constitution awareness during **SIH 2024**.
 - Featured a **quiz game** with real-time leaderboard, a **legal dictionary**, and a **Fundamental Rights** showcase.
 - Designed and deployed using MVC architecture for modularity and scalability.

ACHIEVEMENTS & CERTIFICATIONS

- Solved **300+** **DSA problems** across LeetCode and GeeksforGeeks.
- Finalist – Top 10 in **MNIT Jaipur 24-Hour Web-a-Thon**.
- Secured **2nd place** in **CodeOlympics** competitive coding event.
- Led the college team in **Smart India Hackathon 2024 (Round 1)**.
