SUMMARY

Python AI/ML developer and backend engineer with hands-on experience building intelligent, production-ready systems using Python, Machine Learning, and modern web technologies. Proven ability to integrate AI into full-stack applications, enhance model performance, and ship real-world products. Actively seeking roles in Python Development, AI/ML Development, Generative AI, or Full-Stack Python Development.

EDUCATION

Silver Oak University

Bachelor of Computer Applications (BCA)

Ahmedabad, India

Jun 2023 – Jun 2026

- Relevant coursework: Python, AI/ML, React.js, MongoDB, Backend API Development
- Worked on live projects including AI chatbots, pre-trained model fine-tuning, and full-stack applications

Vedant International School

HSC – CBSE (12th Grade)

Ahmedabad, Gujarat

Jun 2021 – Jun 2023

- Score: 70.2%
- Developed strong foundation in Mathematics and Computer Applications; sharpened problem-solving and communication skills

EXPERIENCE

AI/ML Intern

Mascev Pvt Ltd

Oct 2025 – Dec 2025

Ahmedabad, Gujarat

- Fine-tuned a pre-trained AI model on custom datasets to boost accuracy and extend its capabilities
- Extended the model to support photo generation, image-to-vector conversion, and SVG path rendering
- Built using Python, OpenCV, TensorFlow, PyTorch, and the Vtracer library for model enhancement
- Integrated MongoDB for efficient memory storage and data management during model inference

PROJECTS

Marshall AI

marshall-ai.onrender.com

- **Tech Stack:** React.js, Python, Supabase, SSE, REST APIs
- Built a full-stack conversational AI platform supporting multimodal input (text + image) with real-time streaming responses via Server-Sent Events (SSE)
- Architected a credit system (60 daily credits with automatic UTC midnight reset) and chat management features including create, rename, search, share, and delete
- Delivered mobile-first responsive UI with light/dark theme support and persistent user preferences
- **Live Demo:** <https://marshall-ai.onrender.com>

InsightDraft AI

insightdraft-ai.onrender.com

- **Tech Stack:** Python, React.js, REST APIs, Supabase, Web Search
- Developed an AI-powered business idea analyzer that generates market analysis, risk assessment, cost estimation, and feasibility insights from user-provided inputs
- Integrated web search capability to fetch real-time market data and deliver up-to-date, context-aware business insights
- Implemented Supabase for user authentication and data storage, ensuring secure and persistent user sessions
- **Live Demo:** <https://insightdraft-ai.onrender.com>

Koru AI

koru-all-ai.onrender.com

- **Tech Stack:** React.js, Python, REST APIs, Supabase
- Developed and deployed a full-stack AI discovery platform that curates and compares 16,000+ AI tools across 13+ categories, serving as a comprehensive resource hub.
- Gathered and structured large-scale AI tool data and stored it efficiently
- Built a centralized platform aggregating and categorizing multiple AI tools with dynamic search and filtering
- **Live Demo:** <https://koru-all-ai.onrender.com>

TECHNICAL SKILLS

Languages: Python, C, C++, Core Java, HTML, CSS

AI/ML: TensorFlow, PyTorch, OpenCV, Transformers

Web Frameworks & Libraries: React.js, Node.js, FastAPI, Bootstrap, REST APIs, SSE

Databases: MongoDB, Supabase

Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Render

CERTIFICATIONS

C, C++ and Core Java – Mascev Pvt. Ltd.

AI & ML Live Projects – Internship Based

Git & GitHub Essentials – Self-Learned

Frontend & Backend Development – Self-Learned
