

SUMMARY

Full Stack and Mobile Developer with 1+ year of experience building production-grade applications using React Native, React.js, Next.js, Node.js, and MongoDB. Proficient in Redux Toolkit, REST APIs, JWT authentication, and Firebase.

EDUCATION

Global Institute of Technology and Management <i>Bachelor of Technology in Computer Science & Engineering</i>	Gurugram, Haryana Aug 2020 – June 2024
---	---

EXPERIENCE

Yuva Health <i>Full Stack & Mobile Development Intern</i>	Pitampura, New Delhi Jan 2026 – Present
---	--

- Yuva Healthcare Mobile Application**
- Contributed to the development of a cross-platform healthcare mobile application using React Native, JavaScript ES6+, delivering medical e-commerce, health consultations, diagnostics booking, pharmacy services, and HRA.
 - Implemented Redux Toolkit-based state management across 20+ feature slices, integrated RESTful Spring Boot backend APIs with JWT authentication, and implemented Firebase Cloud Messaging for push notifications.
 - Built 10+ modular feature components using React Navigation, custom hooks, and component-based architecture; optimized rendering performance with React.memo, efficient re-renders, and code splitting, resulting in improved app stability, reduced load times, and enhanced user experience.

Nihal Software <i>SDE Intern</i>	Gurugram, Haryana May 2025 – Jan 2026
--	--

- EdPlan**
- Built reusable UI components and responsive layouts with React.js and Tailwind CSS; developed REST APIs using Node.js, Express.js, and MongoDB for authentication and data operations.
 - Optimized front-end performance through clean rendering patterns, efficient API consumption, and lightweight component architecture.

- Campus Bot – AI Chatbot Interface**
- Built an interactive chatbot UI using React.js and Tailwind CSS; integrated REST API endpoints for conversational flow and managed state with React hooks.

PROJECTS

- TechAce – AI Interview Platform** *Next.js, TypeScript, VAPI, Gemini API, Firebase, Firestore, Zod, Tailwind CSS* [GitHub](#)
- Voice-powered interview simulator using VAPI and Google Gemini API; real-time feedback on clarity, relevance, and confidence; interview history tracked per-user in Firestore.
 - Firebase Authentication for secure sessions; schema-based validation with Zod and TypeScript; fully responsive across all devices.

- ChatBuddy – Real-Time Chat App** *React, Node.js, Express.js, Socket.IO, MongoDB, Zustand, Tailwind CSS, DaisyUI* [GitHub](#)
- Real-time messaging app with Socket.IO for bi-directional communication, online/offline detection, JWT authentication, and bcrypt password hashing.
 - Zustand for global state; MongoDB for persistent storage; responsive multi-theme UI with Tailwind CSS and DaisyUI.

- Estate Quest – Real Estate Platform** *React, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS* [GitHub](#)
- Full-stack real estate platform for buying, selling, and renting with price, location, and availability filters; Firebase Google OAuth for secure authentication.
 - REST APIs with Node.js, Express.js, and MongoDB; responsive React and Tailwind CSS UI; Git version control throughout.

TECHNICAL SKILLS

Languages	: Java, JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend	: React.js, Next.js, React Native, Tailwind CSS, Redux Toolkit, Zustand, React Navigation
Backend	: Node.js, Express.js, REST APIs, JWT, Socket.IO, Firebase, Spring Boot (basic REST API integration)
Databases	: MongoDB, MySQL
Dev Tools	: Git, GitHub, Postman, Vercel, Render, VS Code
