

Bablu Verma

Frontend Engineer (React/Next.js | React Native)

Noida, India | +91 9217205979 | jbabluverma@gmail.com | Portfolio | GitHub

Professional Summary

Frontend Engineer with 4+ years of expertise building high-performance **web and mobile applications**. Specialized in **React.js**, **Next.js 14**, and **React Native** with deep focus on SEO-driven architectures (SSR/SSG/ISR), Core Web Vitals optimization, and responsive component design. Proven track record of improving user engagement by 35%, **reducing page load times by 40%**, and leading frontend teams. Experienced in building **scalable component libraries**, offline-first applications, and real-time user interfaces.

Technical Skills

Frontend & Mobile: React.js • Next.js 14 (App Router) • TypeScript • JavaScript ES6+ • React Native • Expo • Firebase • Push Notifications

State Management: Redux Toolkit • React Query • Zustand • Context API

Styling & UI: Tailwind CSS • Styled Components • Material UI • Storybook • Responsive Design • Design Systems

Performance & SEO: SSR • SSG • ISR • Code Splitting • Lazy Loading • Image Optimization • Core Web Vitals • Lighthouse • Next.js Metadata API

Testing & Analytics: Jest • React Testing Library • Google Analytics • Google Tag Manager (GTM)

DevOps (Frontend): Vercel • Netlify • AWS S3/CloudFront • Docker (basics) • GitHub Actions CI/CD

Work Experience

Fullstack Developer (Frontend Lead) | 4tuners Technologies | Greater Noida | Jul 2025 – Mar 2026

- Led frontend architecture for 3 production apps using **Next.js 14 (App Router)** and TypeScript, reducing bundle size by 32%
- **Integrated CI/CD pipeline with GitHub Actions** for automated testing and deployment to Vercel
- Built offline-first POS system with IndexedDB, background sync, and conflict resolution achieving 80.9% data consistency
- Improved LCP from 2.8s to 1.4s and **image optimization**, font preloading, and critical CSS extraction
- Implemented shared component library with Storybook, reducing development time by 20% across multiple teams
- **Mentored 2 junior** frontend developers and **conducted 20+ code reviews per week** maintaining code quality standards

React & React Native Developer | Freekaamaal.com | Noida | Sep 2022 – May 2025

- Built cross-platform mobile app (**React Native/Expo**) achieving 20K+ downloads with consistent 4.2 rating on App & Play Store
- Reduced Time-to-Interactive from 3.2s to 1.8s through **route-based code splitting** and dynamic imports
- **Implemented SSR** for 50+ deal pages using Next.js, improving Google crawlability and driving 55% organic traffic growth
- Created real-time deal tracking with **WebSocket + React Query**, increasing user session duration by 35%
- Integrated Firebase Cloud Messaging for push notifications achieving 92% delivery rate
- Collaborated with backend team to design REST APIs following JSON:API specifications for consistent data contracts
- Implemented **infinite scroll with virtualized** lists handling 3000+ deal items at 60fps scroll performance

Web Developer | Qwerty Code | Noida | Oct 2021 – Aug 2022

- **Built responsive SPAs with React.js** supporting 1K+ concurrent users with optimized rendering performance
- Implemented reusable component architecture reducing duplicate code by 45% across the application
- Created comprehensive design system with Tailwind CSS including reusable components, typography

scales, and color tokens ensuring consistent UI across 15+ modules

- Integrated **Google Analytics and GTM for user behavior tracking**, custom event monitoring, and conversion funnel analysis enabling data-driven UI decisions
- Optimized bundle size by 28% using **dynamic imports**, tree shaking, and removing unused dependencies

Education

- **BCA (Cloud & Cyber Security)** – Amity University, Noida (2023–2026) - *Online mode – completed alongside full-time industry experience*
- **Senior Secondary (12th)** – GBSS School, Delhi (2020–2021)

Key Projects

Freekaamaal – High-Traffic Deals Platform | [Live]

React.js, Next.js, TypeScript, React Query, Tailwind CSS, Firebase

- Serving 20K+ monthly active users with 99.5% uptime and seamless browsing experience all device types
- Achieved 96 Lighthouse score (Performance 95, SEO 97) through **Next.js SSR/SSG hybrid rendering** strategy with structured metadata
- Built real-time price tracking with **5-second refresh intervals using WebSocket** integration and React Query stale-while-revalidate caching
- Implemented infinite scroll with virtualized lists for 3000+ deal items achieving smooth 60fps scrolling
- Created structured data (JSON-LD) for deals, breadcrumbs, and FAQ schema improving rich snippet **visibility in Google search** results
- Designed responsive **mobile-first UI with Tailwind CSS** achieving 95+ Core Web Vitals across mobile, tablet, and desktop devices
- Integrated Firebase analytics and **crash reporting enabling data-driven UI** improvements and bug fixes

Gaurastra – E-commerce Platform | [Live]

Next.js 14, TypeScript, Zustand, Tailwind CSS, Stripe

- Implemented optimistic UI updates for cart and wishlist operations providing instant user feedback
- Achieved 40% improvement in conversion rate after complete **UI/UX redesign** and checkout flow optimization
- Built persistent cart with **localStorage + Zustand** achieving 65% cart recovery rate for returning users
- Implemented ISR (Incremental Static Regeneration) for product catalog with 1000+ products and 60s revalidation
- Created responsive PWA with offline support, install prompt, and push notifications
- **Designed product recommendation** based on browsing history increasing average order value by 22%
- Added **dynamic breadcrumbs** and faceted search filters improving **product discoverability and navigation experience**

Achievements

- **Employee of the Year 2024** – Freekaamaal.com for frontend architectural contributions and mobile app success
- **Employee of the Month (3x)** – Recognized for consistent delivery of high-quality, frontend solutions
- Reduced **Core Web Vitals** by 45%+ across multiple production applications

Certifications

- **Next.js 14 & React** - The Complete Guide – Udemy (2023)
Covers App Router, Server Components, SSR/SSG/ISR, API Routes, and Authentication
- **Full Stack Development Bootcamp** – Udemy (2024)
Covers React, Node.js, MongoDB, REST APIs, and Production Deployment
