Summary

Aspiring Frontend Developer with hands-on experience in building responsive, user-friendly web applications using **React.js, JavaScript, and Tailwind CSS**. Skilled in transforming Figma designs into pixel-perfect UI, developing reusable components, and integrating REST APIs. Passionate about clean code, performance, and delivering smooth user experiences while continuously growing in modern frontend technologies.

Skills

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frontend:** React.js, Redux Toolkit, React Router, Tailwind CSS
- **Tools & Platforms:** Git, GitHub, npm, VS Code, Vite, Firebase, Cursor AI
- **Backend:** Node.js, Express.js, REST APIs, MongoDB (Basic)

Experience

Frontend Developer Intern

September 2024 – January 2025

NURA9

Remote

- Developed responsive and mobile-friendly UI components ensuring smooth cross-device performance.
- Converted Figma design files into functional, pixel-perfect React pages using reusable components.
- Implemented client-side routing with **React Router**, improving navigation speed and UX.
- Utilized **Tailwind CSS** for scalable, consistent styling across the application.
- Built a custom **toast notification system** for real-time user feedback.
- Developed interactive animations and page transitions to enhance user engagement on the LMS platform.

Projects

Shopee E-commerce Website | *React.js*

[Live Demo](#)

- Developed a fully functional e-commerce application with responsive UI and seamless user experience.
- Implemented global state management for cart, products, and user data using the **Context API**.
- Integrated **Firebase Authentication** and real-time database for user login and product data.
- Enabled smooth multi-page navigation using **React Router**.
- Deployed the application on **Netlify** with continuous updates through GitHub.

ChatBot | *React.js, Node.js, Express, MongoDB*

[Live Demo](#)

- Developed a full-stack chatbot application using **React.js** (frontend) and **Node.js + Express** (backend).
- Designed and integrated **MongoDB** with Mongoose for storing and retrieving chat conversations.
- Implemented **Speech-to-Text (STT)** for voice input and **Text-to-Speech (TTS)** for audio responses.
- Built secure and scalable **RESTful APIs** for message processing and chatbot responses.
- Deployed the backend on **Render** and synchronized it with the React frontend for smooth communication.

Awards & Certifications

- **React – The Complete Guide, NamasteDev.com:** Learned React fundamentals, hooks, routing, component architecture, and state management.
- **Introduction to Java, Coding Ninjas:** Gained understanding of core Java, OOP concepts, and problem-solving.

Education

Master of Computer Applications (MCA)

Graduated: 2022

Amrapali Group of Institutes, Haldwani

Frontend Development Training — Sharpener

March 2025 – Present
