Smart India Hackathon 2025 National Winner and Software Engineer specializing in the MERN stack and Next.js. Expert in building user-friendly, fully responsive, and cross-browser compatible web applications. Passionate about writing clean, optimized code and architecting high-performance interfaces that deliver a seamless user experience across all devices.

WORK EXPERIENCE

Software Developer | Astikan Healthcare

March 2026 - April 2026

- Developed and deployed an advanced admin ecosystem using **Next.js**, **Node.js**, and **Fastify** for managing SEO, blogs, and dynamic web pages.
- Implemented a scalable SEO architecture using **Incremental Static Regeneration (ISR)** to optimize indexing, performance, and dynamic content delivery.
- Built secure APIs, optimized backend workflows, and enhanced overall platform performance for scalable web applications.

Full Stack Developer Intern | YoursCollege

Sept 2025 - Oct 2025

- Built full-stack applications using React.js and Laravel with scalable backend architecture.
- Developed admin panels for streamlined user and data management.
- Designed databases and integrated RESTful APIs with improved stability through testing and debugging.

SKILLS

Frontend React.js, Next.js, Tailwind CSS, Shaden UI, Bootstrap, Redux Toolkit

Backend Node.js, Fastify, Express.js, RESTful APIs

AI & Data Generative AI, Prompt Engineering, LLMs, Vision Agents, Stream SDK

Databases MySQL, PostgreSQL (Neon), MongoDB, Supabase, Prisma ORM

PROJECTS

Multi-Platform System Hardening Tool: SIH'25 – National Winner (NTRO)

- Contributed to a cross-platform OS hardening solution for **Windows** and **Linux (Ubuntu, CentOS)**.
- Designed and developed frontend for security assessment, hardening levels, and rollback workflows.
- Integrated the **Angular** UI with a **Go** backend using **Wails** to enable system-level operations.

MeetIQ: AI-Powered Smart Meeting Assistant

[Link to Code](#)

- Engineered an AI-powered video meeting platform with a voice-activated agent using Vision Agents and Stream SDK.
- Implemented real-time transcription and context-aware Q&A that activates only on specific voice commands.
- Designed a responsive UI using **Next.js** and **Shaden UI** with optimistic updates.

ResuAI: Resume and CV Builder

[Link to Demo](#)

- Developed an AI-powered resume and cover letter generation platform using **React 19**, **Node.js**, **Express**, and **TailwindCSS**.
- Integrated the high-speed **Groq API** to transform raw user input into professional resumes and tailored cover letters.
- Implemented features including **PDF export**, and optimized frontend-backend communication using **Axios**.

ChitChatter: Real-time Messaging Application

[Link to Demo](#)

- Built a high-performance chat platform using **React 19** and **Socket.io** for instant, bidirectional communication.
- Developed a scalable **Node.js** and **Express** backend with **MongoDB** to persist message history.
- Implemented secure user authentication using **JWT** and real-time online status indicators for active users.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

AKTU (2022 - 2026)

ACHIEVEMENTS

- **National Winner:** Smart India Hackathon 2025 (National Technical Research Organisation).
