Education

Dr.A.P.J Abdul Kalam Technical University (AKTU), India	2020 - 2024
• Bachelor of Technology (B.Tech) in Computer Science Engineering CGPA: 7/10	
M.S.S Inter College, India	2019 - 2020
• UP Board (Class XII) CGPA : 7/10	
M.S.S Inter College, India	2017 - 2018
• UP Board (Class X) CGPA : 7.4/10	

Skills

- **Frontend:** HTML5 , CSS3 , JavaScript , React.js , Redux , Material UI , TailwindCSS
- **Backend:** Node.js , Express.js
- **Databases & ORM:** MySQL , MongoDB , Sequelize
- **Tools & Deployment:** Git, GitHub, Postman, DigitalOcean
- **Testing:** React Testing Library, Jest
- **Familiar with:** Redis , Docker , AWS

Work Experience

Gharmakaan	[Jan 2025 - Present]
Full Stack Developer	
<i>Gharmakaan is a platform designed to help users discover, list, and manage properties with an intuitive and modern interface.</i>	
• Developed core features for listing, search, and detail pages using React, Node.js, and Sequelize. • Built a multi-step property posting form with route-based navigation and real-time save. • Created responsive UI with MUI and implemented secure auth using tokens and cookies. • Designed REST APIs for projects, media uploads, and admin/user interactions. • Migrated data from WordPress to a custom MERN stack, boosting performance.	
Sourcery IT	[July 2024 - Dec 2024]
Full Stack Developer	
<i>Sourcery IT specializes in developing innovative websites, seamlessly integrating blockchain technology for secure and scalable solutions.</i>	
• Integrate APIs into front-end applications, optimizing user interaction and data flow between systems • Design, build, and maintain robust backend APIs to ensure smooth functionality and performance. • Create and implement responsive and user-friendly web designs for seamless user experiences.	

Projects

E-Commerce Website
<i>Technologies Used :- React.js , Node.js , SQL, Express.js, MUI,</i>
• Built an e-commerce website using React. • Designed a responsive front-end interface using MUI. • Developed a user authentication system and implemented secure user sessions. • Implemented a robust search functionality allowing users to filter and search products by various criteria
Online Test System
<i>Technologies Used :- MongoDB, Express.js, React, Node.js.</i>
• Developed a MERN stack-based online test system with real-time assessments and analytics. • Secured the application with JWT and session management for authentication and authorization. • Implemented intuitive test creation and management features, including question addition and time limits. • Created an analytics dashboard for performance metrics like average scores and completion rates.
