Technical Skills

Android Development: Android SDK, Data Storage & Persistence, Networking

Programming Languages: Kotlin, Java, Python

Database & ORM: Firebase, SQL

Additional Skills: Data Structures & Algorithms, Rest Api

Experience

HyprDevs

Jun 2025 – Jul 2025

App Development Intern (Android)

- Designed and built a functional Android app implementing MVVM architecture and XML layouts.
- Created a 4-screen user flow (Login, Register, Home, Profile) with session handling via SharedPreferences.
- Integrated third-party REST APIs using Retrofit, incorporating structured error and loading state management.
- Managed smooth reactive UI updates and screen transitions using LiveData, ViewModel, and Jetpack Navigation.

Network People Services Technologies Limited (NPST)

Jan 2026 – Apr 2026

Flutter Developer Intern

- Developed scalable, cross-platform mobile applications using Flutter with clean UI architecture.
- Integrated REST APIs for real-time data handling, optimizing network calls to reduce latency.
- Implemented dynamic UI state management using Provider and GetX to isolate business logic.
- Collaborated across backend and QA teams to debug runtime issues and streamline production releases.

Projects

The Hungry Fish – Interactive Game | Java, Android Studio

- Developed a fun and engaging 2D game using Android java, featuring interactive controls and smooth animations.
- Implemented collision detection and scoring mechanisms for an immersive user experience.
- Optimized game performance by reducing redundant calculations and improving asset loading times.

Weather App – Real-Time Weather Forecast | Java, Android Studio, API

- Built a responsive weather application that fetches real-time weather data using OpenWeather API.
- Implemented location-based weather updates and a user-friendly UI with dynamic themes.
- Optimized API requests and improved response speed for seamless user interactions.

Grocery Store App | Flutter, Firebase

- Developed an e-commerce grocery app with product search, cart, and checkout functionality.
- Integrated REST APIs and optimized widget rendering for smoother performance.

Education

Guru Gobind Singh Indraprastha University

November 2022 – June 2026

Bachelor of Technology (CSE)

Delhi, India

DARBARI LAL DAV MODEL SCHOOL

2018 & 2022

10th and 12th

Delhi, India

Certifications & Achievements

Certifications & Achievements

- **IBM AI/ML & Deep Learning Certification** – Specialized training in AI, ML, and deep learning from IBM.
- **Udemy Android Development Course** – Gained hands-on experience in Android app development.
- **HSBC Micro-Internship** – Completed a micro-internship through Forage, focusing on financial applications.
- **Coding Ninjas DSA Certification** – Completed a structured Data Structures and Algorithms course.
