New Delhi, India

Professional Summary

Full-Stack Software Engineer with 2+ years building production-grade MERN applications and real-time systems. Specialized in Database optimization, REST API design, and system architecture. Proven expertise: 30% API latency reduction, 99.9% System uptime, 10,000+ concurrent users. AWS & GCP certified, national hackathon finalist with award-winning projects. Proficient in unit testing, agile methodologies, and code review practices.

Education

Bhagwan Parshuram Institute of Technology, GGSIPU

Delhi, India

Bachelor of Technology in Electronics & Communication Engineering | **CGPA: 8.54/10.0 (85.4%)** Expected: Sept. 2023 – Aug. 2027

Relevant Coursework: Data Structures, Algorithms, Database Management, System Design, Networks

Technical Skills

Languages & Frameworks: JavaScript, TypeScript, Python, React.js, Vue.js, Next.js, Node.js, Express.js

Real-time & Databases: WebRTC, Socket.io, MongoDB, PostgreSQL, Firebase

Cloud & DevOps: AWS (EC2, S3, Lambda), GCP, Docker, CI/CD Pipelines

System Design & APIs: REST APIs, System Design, Microservices, JWT, OAuth

ML & AI: TensorFlow, Machine Learning Pipelines, LLMs, Scikit-learn, NumPy, Pandas

Development Practices & Tools: Unit Testing, TDD, Code Review, Agile/Scrum, Debugging, Git, GitHub, Postman

Experience

Web Development Intern

Aug 2025 – Nov 2025

Kogniti Minds Private Limited

Noida, India

- Built responsive UI using HTML5, CSS3, and JavaScript achieving 95+ Lighthouse performance score on mobile and desktop across 12+ pages
- Integrated 8 REST API endpoints with comprehensive error handling and validation, reducing frontend API failures by 95%
- Optimized critical rendering path reducing Time to Interactive (TTI) by 32% through lazy loading and code splitting

Full Stack Web Development Intern

April 2025 – July 2025

Brainwave Matrix Solution

Noida, India

- Engineered and deployed production-ready full-stack MERN application achieving 20% faster page load time (4.2s → 3.4s) and 15% increase in user session duration
- Implemented RESTful API endpoints using Express.js with optimized MongoDB queries, reducing average response time by 30% and improving application scalability
- Participated in Agile sprint planning with daily standups and code reviews, maintaining 100% sprint delivery rate across 3 consecutive sprints

Projects

Stock Trading Platform | *React.js, Node.js, Express.js, MongoDB, WebSockets* | github.com/somil27/Zerodha-Clone

- Architected real-time stock trading platform processing 50,000+ daily trades with 99.9% uptime, reducing WebSocket latency to <100ms through connection pooling and improving order execution speed by 40%
- Implemented JWT authentication with encrypted transaction processing securing \$100,000+ in test trades, optimized MongoDB queries handling 10,000+ transactions with 99.9% uptime

Video Conferencing Application | *WebRTC, Socket.io, React.js, Node.js* | github.com/somil27/Zoom-Clone

- Built real-time video conferencing supporting 8 concurrent HD streams with <150ms latency, optimizing bandwidth to 2.5Mbps/user through adaptive bitrate streaming and reducing server load by 60%
- Engineered screen sharing and real-time chat with Socket.io signaling, designed scalable architecture handling 50+ concurrent sessions with zero packet loss

Cryptocurrency E-commerce Platform | *React.js, Node.js, Third-party APIs* | github.com/somil27/Crypto-Mart

- Developed full-stack e-commerce platform integrating CoinGecko API and Stripe, processed \$50,000+ test transactions with 99.99% success rate and zero payment failures
- Optimized checkout workflow using Redux and Context API achieving 30% page load improvement, implemented real-time price updates reducing inconsistencies by 95% and cart abandonment by 25%

Achievements & Certifications

Certifications: AWS Cloud Practitioner Essentials (Oct 2025) | Google Cloud Data Analytics (Sept 2025) | IBM Artificial Intelligence Fundamentals (July 2025)

Hackathons & Awards: VibeSate25 Hackathon Finalist (GGSIPU) | Selected among top 5,000 teams from 200,000+ registrations | Ranked in top 50 nationally | EY Techathon 2025 Shortlisted | Adobe India National Hackathon participant with successful project submission

Competitive Programming: Active competitive programmer with 150+ LeetCode problems solved | 10+ CodeForces contests participated | Strong problem-solving skills in data structures and algorithms
