PROFILE

Project Manager with over 13+ years of expertise in healthcare, banking, neo-banking, education, and customer relationships, offering comprehensive knowledge across these domains. I partner closely with IT implementation teams and business leaders to identify and capitalize on opportunities for enhancing products, services, and core business processes. I am proficient in Waterfall Kanban and Agile methodologies, I excel in business process reengineering, requirement gathering, and strategic stakeholder management. My technical expertise includes creating detailed specifications using UML, facilitating JAD sessions, and conducting comprehensive GAP analysis.

- Managed and mentored teams of 6–8 to deliver complex requirement gathering and solution design artifacts for diverse clientele.
- Demonstrated excellence in project management using **AI enabled Atlassian portfolio tools**, client communication, project planning, team building, requirement elicitation, wireframing, managing changes, and obtaining sign-off.
- Provide input into strategic planning, roadmaps, prioritization, identified customer needs, presenting and interfacing with sponsors.
- Creation of **AI Gems, Mermaid code** generation for Flowchart, Class, Sequence and other Diagrams, AI story Writer/Refine, AI Sprint report review, Analyse Velocity.
